

Unidentified owner

IA 14 Map 4: T4S, R8E, S 17

There was no information available for this tract. It was plotted on the Base Map based on the HE tract map drawn by the Ranger for tract HF08. Additional lands to the north and east may be part of this tract, but that could not be confirmed from the HF08 tract map so they are plotted on the Base Maps (Layer 6) as private tracts whose ownership remains unidentified.

HF08 also discusses the challenges in this area with plotting the property boundaries as a result of problems with the original GLO survey.

It seems likely that this tract was owned by a member of the extended Willburn Family (B05).
